CHOOSE YOUR PERFECT PACK SIZE!

We offer three convenient pack sizes: 1kg, 10kg, and 20kg.

Please note that only 4 of our blends are available in the 1kg and 10kg sizes. However, if you order 20kg or more, you can select any colour from our extensive colour chart!

Note: There may be differences between the print and 'on-screen' colour chart when comparing to the installed colour. Ox Resin Ltd accepts no responsibility for this and recommend that a sample is installed on site for final approval before any jobs is completed.
